

EFFECTS GUIDE

This is just a guide to the effects and what they do. NOT where to get them - go to the Game Guides for that.

NO EFFECT

This is Madotsuki with no effects equipped. You walk at normal speed. Pressing 1 makes you sit down, and if you wait a while you'll fall asleep. Pressing 1 again makes you get up.

BICYCLE

Equipping this effect makes you get on a bike. You move at twice normal speed. Pressing 1 rings your bell.

BLONDE HAIR

You're a blonde. Pressing 1 makes you sit down, and if you wait a while you'll fall asleep. Pressing 1 again makes you get up.

BUYO BUYO

You wobble when you walk, like gelatin. Pressing 1 makes you wobble in place.

CAT

You have a tail and ears. Pressing 1 makes you meow and swipe at the air like a cat, while your eyes turn red. This causes most creatures to be drawn towards you.

DEMON

You're a red-skinned demon in a leopard skin. If it is raining, pressing 1 creates a sheet of lightning.

FAT

You become quite overweight. Pressing 1 makes your stomach go "Gooooo."

FLUTE

You've got a flute. Pressing 1 makes you play a tune.

FROG

You have the head of a frog. You can move at normal speed in water, when you would normally move at half speed. Pressing 1 makes you jump in place.

HAT AND SCARF

You don a hat and scarf. If it is snowing, pressing 1 will turn you into a snowman; pressing 1 will turn you back. You cannot go to the menu screen if you are a snowman. If it is not snowing, pressing 1 does nothing.

KNIFE

You carry a butcher knife. Pressing 1 swaps the knife from hand to hand, and Z stabs.

LAMP

Your head is a lamp. Pressing 1 turns your light on and off.

LONG HAIR

You have long hair now. Pressing 1 makes you sit down, and if you wait a while you'll fall asleep. Pressing 1 again makes you get up.

MEDAMAUDE

Your head is now a giant hand with an eyeball in the palm. Pressing 1 causes the hand to close, and you teleport back to the Nexus.

MIDGET

You become very small. Pressing 1 makes a clone of yourself which will follow you. Pressing 3 kills a clone bloodily. You can have up to seven clones at once.

**NEON**

You become like a neon sign. Pressing 1 makes the screen glow a color, which changes if you press 1 again. Unequipping the effect stops the glow.

**NOPPERABOU**

You have no face! Pressing 1 makes your head spin off your shoulders once then come back down.

**POOP HAIR**

Your hair is poop. Pressing 1 makes a fly circle your head, and it will remain there when you walk away. You may do this as many times as you like, and the flies will remain even if you unequip the effect.

**SEVERED HEAD**

You become just a head with a bloody neck, laying on the floor. You move at half speed in this form. Pressing 1 does nothing.

**STOPLIGHT**

You're a stoplight with feet. Pressing 1 toggles your light from green to red. A red light will stop all moving creatures in their tracks.

**TOWEL**

You're wrapped in a towel. Pressing 1 makes you sneeze.

**TRIANGLE KERCHIEF**

You wear a white kerchief on your head. Pressing 1 turns you transparent.

**UMBRELLA**

You hold an umbrella, wear a raincoat, and it begins to rain. Pressing 1 makes you wiggle the umbrella. The rain will continue even if you use another effect. Only deliberately

unequipping it will stop the rain.

WITCH

You wear a Halloween witch costume. Pressing 1 makes you get on a broom and hover; pressing 1 makes you get back off. You cannot "fly" with this effect, except in one specific location.

YUKI-ONNA

You turn into an Ice Queen-like figure with red eyes, and it begins snowing. Pressing 1 does nothing. The snow will continue even if you use another effect. Only deliberately unequipping it will stop the snow.
